# About HyVolution

## EXHIBITION + CONFERENCES + NETWORKING + B2B MEETINGS

## HyVolution

Your fast growing H2-business event in Europe comes to Chile.

### NUMBERS OF HYVOLUTION

- +400 b2b meetings.
- +1.000 matching on HyVolution Connect.
- +1.000 participants to the 15 HyVolution TV Sessions..
- +2.500 participants to 50 workshops on the Forums..

### TOPICS OF THE CONFERENCES IN CHILE

- National Green Hydrogen Strategies from Chile and other countries
- Energy & Hydrogen markets and forecast.
- Analysis of applications for green hydrogen and associated products.
- Financing & Investments.
- Business opportunities with case studies of project under development / planning
- Technological development and challenges in production.
- Communities and sustainable development.
- Human capital and new talents.
- Among others.

# WHY CHILE?

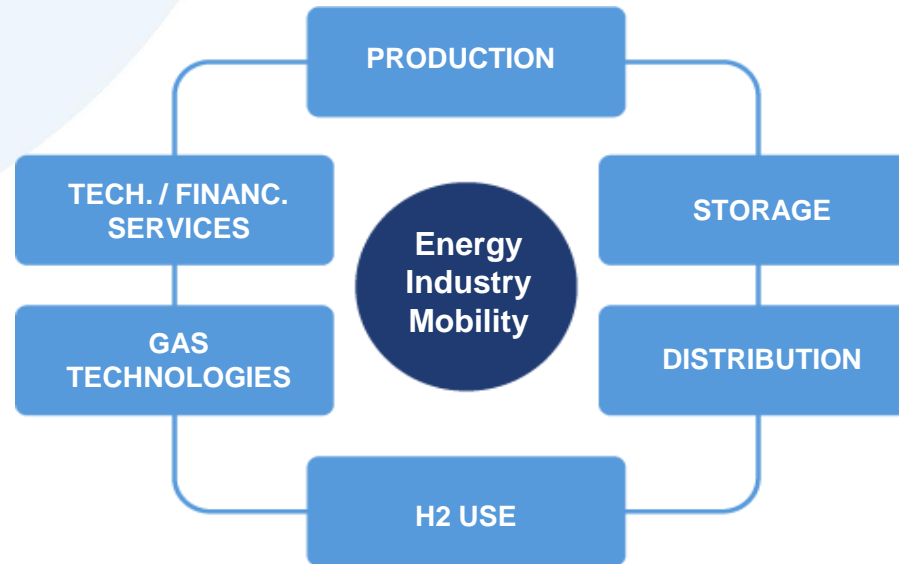

- In 2021, Chilean Ministry of Energy published the National Green Hydrogen Strategy with a long-term roadmap.
- This strategy defined goals and timeline for H2 production, installed electrolysis capacity and investments.
- Additionally, the use of green hydrogen in domestic applications will generate an industry prepared to compete in international export markets.
- Investment in green hydrogen will lead to significant national capabilities and the creation of dynamic economic ecosystems throughout the country.
- Citizen and communities' participation; role of private / public companies, and human capital with focus in new talents are also other key issues to be addressed.
- +40 projects have already sprung in Chile.
- In May 2022, a Committee for the Productive Development of the Green Hydrogen Industry was created. It will be led by the Ministry of Energy and will coordinate to different key players and initiatives of public policies to foster the opportunities in this industry.

# WHO PARTICIPATES?

## Exhibitors:

- All solution in the value chain
